> Rocky Mountain National Park (RMNP) was able to gather GPS data on Friday,
> June 17 on the location of the levee that was constructed along North Inlet
> Creek. Using Grand County Assessor's data, we have a reasonable idea where
> the west boundary of RMNP is located in relation to the levee and the
> ground disturbance behind the levee (please see the attached map). These
> activities have occurred on private property within the authorized boundary
> of RMNP. The interest held by RMNP is a scenic easement only. At this

> point in time we do not know what, if any, legal recourse RMNP will pursue
> in this matter.
